

Breeze Aviation Services Ltd. Covid 19 Policy

General

- All students are required to conduct their own personal risk assessment, taking into account any underlying health problems, or other risk factors, that they or their close family may have. This assessment should be based on the official guidance published by the government. Following this RA, they will, if satisfied that they are not putting themselves or their family at undue risk, be required to sign a statement to that effect before undertaking any dual flight training.
- Anyone, showing **ANY** of the following symptoms should stay away and not risk spreading the infection.
 - A high temperature.
 - A new, continuous cough.
 - A loss or change to your sense of smell or taste.
- Any student who is suffering from a complaint such as hay fever, which causes them to sneeze, should stay at home. Sneezing while not a Covid 19 symptom, will cause an increased threat of spreading the virus if the person is infected.
- Any student who believes, that they may themselves be infected, or have come into contact with anyone who has, must advise Breeze at the earliest opportunity.
- Any student displaying any symptoms, at any time, must inform Breeze so that appropriate actions may be taken.
- All students will be required to have on file, full contact details in order to assist with track and trace, in the event of any infection.
- To enable social distancing to be managed effectively, no other visitors are to be admitted other than the student. Friends, family and children must remain outside if accompanying the student.
- No personal contact should take place, so no hand shaking etc.
- On arrival and after each flight etc. Breeze staff and students must thoroughly wash their hands, following the WHO 7 point guidance, before entering the classroom.
- No dual flights will take place, unless there is at least one other Breeze representative, in addition to the instructor, present before and after the flight, in order to assist in undertaking the required precautions.
- Regular cleaning in accordance with Breeze Covid Cleaning Policy must be undertaken.
- An initial cleaning, must be carried out first thing in the morning before any students are admitted.
- Body temperature will be taken on arrival and anyone with a temperature of 38°C or higher, will be considered as potentially infected.
- Hand sanitiser will be available in the classroom and must be used immediately, **before** touching anything, after entering, and at regular intervals after. This is particularly important after coughing or sneezing etc. when hands may become contaminated.
- Social distancing must be observed at all times (2 metres wherever possible) within the classroom, and the aero club, both inside and outside.
- In addition to this Breeze policy, all relevant SAC rules and signage, regarding COVID precautions must be adhered to at all times.

In the Aircraft

- The aircraft must be sanitised in accordance with the Breeze Covid Cleaning Policy, before the first flight of the day.
- The instructor reserves the right, to refuse to fly with anyone, who at any time displays any symptoms, or fails to comply with this policy, this will include termination of a flight at any time.
- Full body covering must be worn in the aircraft, arms and legs must be covered by flying suit, shirt and long trousers or similar. Bare arms and legs will not be allowed in the aircraft.
- As a **minimum**, face masks conforming to **European Standard EN 14683:2014. EU class IIR** must be worn by both occupants,. Students are responsible for providing their own masks.
- Hand sanitiser must be used prior to entering the aircraft.
- It will not be possible to share personal equipment such as head sets, check lists, and knee pads etc. students are responsible for providing any such equipment.
- Due to the above, standard trial flights are unlikely to be undertaken if the student does not have a headset.
- In exceptional and very limited circumstances, it may be possible for Breeze to loan a pre sanitised headset. In such cases, the headset will be out of service for a minimum of 72 hours following use, meaning that this could only be offered at the most twice a week.
- The aircraft is to be sanitised in accordance with the Breeze Covid Cleaning Policy after every flight.
- Hands must be thoroughly washed, or sanitised if washing is not possible, before fitting or removing any PPE.
- All potentially contaminated cleaning materials and PPE etc. must be stored (for washing) or disposed of responsibly to avoid spreading infection.
- Any PPE or face mask etc. that is worn must be used in full compliance with the manufacturers instructions and be compatible with safe flight.
